Education

iTECH Elbinsel | 08/2013 - 08/2016

- Apprenticeship to it-specialist
- Specialisation in mobile apps

Languages

German | native speaker
English | fluent, C2 Level

MATTHIAS EYMERS

AI AUTOMATION & MOBILE APP EXPERT

KEY FACTS

- 15 years in tech - 10+ years as software engineer
- 25+ developed Apps
- Reached 10M+ users over all with mobile Apps
- Fully automated AI agent build pipelines
- Native Android, KMP / CMP & crossplatform with Flutter
- Worked for: Deutsche Bahn, Star Finanz, Die Techniker, Barmer, AOK, T-Systems, FitX, Luca, Hamburger Hochbahn (HVV)
- Co-Founder and CTO of [recoupling](#) ❤️ with 300.000+ users

SKILLS

ARTIFICIAL INTELLIGENCE (AI)

- **Automation**
LLM, Claude Code, Codex, ChatGPT, Open Claw, n8n, Agentic Coding, CLI, OpenAI, Paperclip, Cursor, Orchestration, Prompt Engineering, Context Engineering, Human in the loop

DEVELOPMENT

- **Android / KMP / CMP**
Kotlin, Java, Compose, Room, CI/CD, Jenkins, Unit-Testing, Retrofit, Dagger Hilt, Coroutines, RxJava, Dagger, Koin, Rest, Clean Code, Clean Architecture, Android Jetpack, MVVM, MVP, Kotlin Multiplatform, Compose Multiplatform, Ktor, Accessibility (a11y), Mockito, MockK, JUnit, Espresso, Git, Github/Gitlab, Jenkins, Firebase, Legacy Code
- **Flutter (Android / iOS)**
Dart, Bloc, Cubit, Provider, l10n, Go Router, Get It, Hive, Clean Code, Clean Architecture, Unit-Testing, Firebase

PROJECT MANAGEMENT

Leadership, Agile & Lean Methodology, Scrum, Architectural Planning, Kanban, Stakeholder-Management, Mentoring, Health Care

BARMER

Senior Android
09/2025, 7 months

BARMER / AOK (Healthcare)

- Build a secure authentication SDK from scratch (Sek Idp 2.0) for 5M+ people
- Technical implementation with KMP / CMP for Android and iOS
- High security OWASP and Gematik standards

Technologies: Android, Kotlin, KMP, CMP, Ktor, Koin, Accessibility (a11y), Clean Architecture, JUnit, MockK, Claude Code, Agentic Coding, Open AI, ChatGPT

starfinanz

Senior Android
03/2025, 3 months

Star Finanz Entwicklung (Fintech)

- Implemented instant payment for 500.000+ users
- Technical evaluation of instant payment feature
- Upgraded project to Jetpack Compose

Technologies: Android, Kotlin, Java, XML, ViewBinding, Compose, Clean Code, JUnit, Mockito, MockK, AsyncTask, Claude Code, Agentic Coding, Open AI, ChatGPT

Senior Android
09/2023, 13 months

Deutsche Bahn AG (Public Transportation)

- Built secure access to critical train data for 6M daily passengers
- Large legacy code migrations
- Technical evaluation and documentation

Technologies: Android, Kotlin, Java, Coroutines, Accessibility (a11y), MVVM, Jetpack

Senior Android
11/2024, 5 months
09/2022, 12 months

JAKALA Germany (Public Transportation)

- Development of the Android apps "hvv switch" and "SRF Meteo" for 2M+ users
- Major XML-to-Compose redesigns
- Development following agile Scrum

Technologies: Android, Kotlin, Compose, Kotlin Multiplatform, Accessibility (a11y), MVVM, Dagger Hilt, Clean Code, JUnit, MockK, OpenAI, ChatGPT, Agentic Coding

Lead Android
06/2022, 3 months

culture4life

- New development of the Android app "luca link"
- Build a highly scalable app architecture from scratch with high code quality
- Build, release, and deployment processes

Technologies: Android, Kotlin, MVVM, Coroutines, Jetpack, Firebase, MockK

Senior Android
10/2021, 7 months

FitX Deutschland

- Further development of the Android app "FitX – Fitness App"
- Implementation of new fitness features for 200.000+ active users

Technologies: Android, Kotlin, Compose, MVVM, Dagger Hilt, Clean Code, JUnit, MockK

Senior Android
11/2019, 23 months

Die Techniker Krankenkasse (Healthcare)

- Further development of the Android app "TK-App"
- Integration and maintenance of the "TK-Safe" (ePA / eGA) and "TK-Fit" modules
- Support and mentoring of trainees
- OWASP security standards
- Build, release, and deployment Google Play Store with 2M+ Android users

Technologies: Android, Kotlin, Java, Databinding, ViewBinding, Koin, JUnit
